

# Testimonials

After I attended the HousingWorks Training, I felt that it was a very helpful training for me as a Domestic Violence Advocate. I greatly thank you and your organization for providing this kind of training.

i'm forwarding info on a program that i think would be useful for the membership, if folks don't already know about it. HousingWorks (more info at bottom) is revamping and really newly developing a PHENOMENAL database for Advocates and Case Managers from various walks of life (HIV/AIDS, DV, homelessness/transitional housing, disability/independent living, etc.) to search for housing, submit housing apps, etc., for/on behalf of and with clients. the finished product is not quite finished yet/is still being refined to be as comprehensive as possible AND responsive to the varied and specialized needs of the users as possible. John LaBella, the database brainchild and trainer, is actively training now throughout the state and is also actively soliciting feedback and suggestions to ensure that it serves clients and users truly as well as possible.

You are without a doubt one of the most pleasant and thoughtful people I have ever encountered. I like the way you communicate. You think of all the angles and possibilities, and word things in such a way that meaning is clear and thought provoking. Thank you for your cheer and good nature, and your comfort with your own limitations. Most important thank you for your dream to be the best at whatever you are doing. I truly appreciate you, and all the great things you and HousingWorks are doing to alleviate confusion, repetition, and under use, of precious resources.

Thanks ,

**Chris DMH staff in Haverhill**

Thanks as always for your prompt no-bullshit response. We need more folks like you to work with. It's a breath of fresh air. Can't tell you what a pleasure it is to ask these questions and get clear, straight and prompt answers. Thanks so much!
